Narayanaswamy and M. V. Mohan Rao

Compressive boundary layer on a yawed semi-infinite flat plate with suction and injection. (G. C. Ahuja) . . . . . . 65

Gravitational instability of an infinitely extended layer of finite thickness surrounded by non-conducting material in the presence of magnetic field and rotation. [(Miss.) C. Uberoi] . . . . . . 11

Gravitational Instability in the presence of Hall Current. [(Miss) C. Uberoi and M. R. Raghavachar] . . . . . . 91

Microflora associated with the Rhizosphere of calotropis gigantea. (A. D. Agate and J. V. Bhat) . . . . . . 1

Modified Electrostatic Method for calculation of Induction in Molecules. (Sundaresa S.) . . . . . . . . . . . . 20

Potential Analogue Method for study of the Fields and the Characteristic impedance of Bar lines. (K. C. Gupta) . . . . . . 104

Pumpless diesel injection systems. (K. Narayanaswamy and M. V. Narasimhan) . . . . . . . . . . . . . . . . . . . . 29

Unsteady motion of non-newtonian fluid in the annular space between two porous concentric circular cylinders. (D. K. Mohan Rao) . . . . . . 57
