Appropriate building materials by Roland Stulz, reviewed by K. S. Jagadish 341

Basic structural analysis by C. S. Reddy, reviewed by K. S. Jagadish 70

Being successful as an engineer by W. H. Roadstrum, reviewed by S. G. Ramachandra 237

Cement chemistry and physics for civil engineers by W. Czernin, reviewed by T. S. Nagaraj 180

Components for microcomputer design edited by Dave Bursky, reviewed by B. S. Sonde 332

Computers and social change by Murray Laver, reviewed by N. Vijayaditya 69

Computer design development: Principal papers edited by E. E. Swartzlander, reviewed by Priti Shankar 333

Conditional independence in applied probability by P. E. Pfeiffer, reviewed by V. Krishnan 242

Designing microcomputer systems by Udo W. Pooch, reviewed by M. S. Viswanathan 331

Dynamics in civil engineering by Alexander Major, reviewed by K. T. S. Iyengar 180

Electromagnetism and its applications—an introduction by B. Bolton, reviewed by B. I. Gururaj 62

Electronic devices by F. R. Connor, reviewed by E. S. R. Gopal 68

Engineering principles of acoustics by Dougls D. Reynolds, reviewed by M. L. Munjal 169

Experiments in engineering geology by K. V. G. K. Gokhale and D. M. Rao, reviewed by A. Sridharan 179

Fortran on time-sharing by G. E. Zinsmeister, reviewed by D. N. Seshadri 335

Fortran programming with applications to engineering by Jack B. Evett and Richard P. Pinckney, reviewed by M. L. Munjal 238

Going solar—a practical guide to solar water heating by Cleland McVeigh and Diana Schumacher, reviewed by A. Thomas 70

Good Style by John Kirkman, reviewed by R. Narasimha 71

Guidance and control 1980 edited by Louis A. Mourie, reviewed by S. K. Shrivastava 174

Handbook for limit state design of reinforced concrete members by V. K. Ghanekar and J. P. Jain, reviewed by Prakash Desayi 108

Handbook of Soviet lunar and planetary exploration by Nicholas L. Johnson, reviewed by S. K. Shrivastava 177

Handbook of Soviet manned space flight by Nicholas L. Johnson, reviewed by S. K. Srivastava 177

IC array cook book by Walter C. Jung, reviewed by S. R. Bhat 140
The ignis fatuus of biogas by J. Van Brakel, reviewed by C. R. Prasad 339

Introduction to microcomputer programming by Peter Sanderson, reviewed by N. Chakrapani 105

Introduction to microprocessors by Aditya P. Mathur, reviewed by N. J. Rao 142

Light current electrical applications—III by A. Simpson, reviewed by B. S. Sonde 63

Lightning and its spectrum—an atlas of photographs by L. E. Salanave, reviewed by B. I. Gururaj 61

Limits of plastics uses in vehicle construction in the eighties. reviewed by Manas Chanda 167

Linear multivariable control theory by Y. S. Apte, reviewed by M. R. Chidambaram 239

Local experience with micro-hydrotechnology by Ueli Meir, reviewed by S. Soundranayagam 245

Mathematics for technician engineers by George E. Dyball, reviewed by Y. V. Venkatesh 67

Mechanical vibrations: Theory and applications by Francis S. Tse, Ivan E. Morse and Rolland T. Hinkle, reviewed by M. L. Munjal 171

Microprocessor systems design and applications edited by Dave Bursky, reviewed by H. P. Jaiswal 175

Microscopes and their uses by Claude Marmasse, reviewed by S. V. Pappu 178

Network theory and filter design by Vasudev K. Aatre, reviewed by B. S. Sonde 64

Prestressed concrete by N. Krishna Raju, reviewed by K. T. S. Iyengar 143

Principles of process control by D. Patranabis, reviewed by L. M. Patnaik 106

Processing and uses of carbon fibre reinforced plastics, reviewed by Manas Chanda 242

Programming programmable calculators by Harold S. Engelsohn, reviewed by K. P. P. Nambari 334

Remember the future—The Apollo legacy edited by Stan Kent, reviewed by P. J. Paul 246

Shuttle/Spacelab: The new transportation system and its utilisation edited by D. E. Koelle and G. V. Butler, reviewed by S. K. Shrivastava 175

Space—Enhancing technological leadership edited by L. P. Greene, reviewed by S. K. Shrivastava 176

Space shuttle—Dawn of an era, reviewed by H. S. Mukunda 139

Thermodynamics of nuclear materials—1979 (Vols. I and II), reviewed by K. I. Vasu 336

Transport processes and unit operations by C. J. Geankoplis, reviewed by G. Narsimhan 171

Ultrasonics by A. P. Cracknell, reviewed by S. Krishan 107

Underground disposal of radioactive wastes (Vols. I and II), reviewed by K. I. Vasu 338

Uranium evaluation and mining techniques reviewed by K. I. Vasu 337

Who's who in technology (Austria-Germany-Switzerland edition) edited by Otto J. Groeg, reviewed by S. Soundranayagam 238
